

has been an aquatics industry leader for over 40 years, and we are committed to developing the best products and solutions to simplify the care of aquariums and ponds.

ALGAEFIX[®] Benefits

Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear. Can be used in ponds containing fish and plants.

Proven efficacy

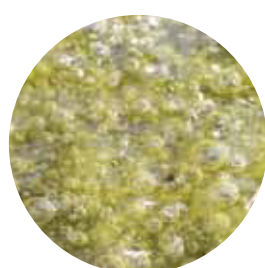

PondCare ALGAEFIX effectively controls these types of algae: Green or Green water algae (Chlorella), String or Hair algae (Cladophora) & Blanketweed (Oedogonium) in ornamental ponds & fountains. Safe for aquatic pond plants and fish.

Green or Green water algae

String or Hair algae

Blanketweed
